PROFILE

First and only Orthodontist from Odisha to earn an MDS degree from the esteemed research institute of India, the PGIMER, Chandigarh. Passionate about crafting beautiful, functional smiles through advanced orthodontic techniques self-ligating brackets, Comprehensive Fixed and Functional therapy and interdisciplinary planning. Committed to precision care rooted in evidence-driven, patient-centric treatment.

WORK EXPERIENCE

PGIMER, Chandigarh 2021- 2024
MDS - Orthodontist and Dentofacial Orthopaedics

- Manage and treat complex orthodontic cases including bi-jaw orthognathic surgical cases, vertical maxillary excess corrections with impaction surgery, and canine-incisor de-impactions.
- Develop digital workflow planning for surgical cases, integrating advanced imaging and treatment simulation technologies.
- Oversee comprehensive management of cleft lip and palate patients from childhood through adulthood, coordinating interdisciplinary care.
- Implement growth modification protocols using Bone-Anchored Maxillary Protraction (BAMP) techniques.
- Utilize Temporary Anchorage Devices (TADs) for enhanced orthodontic anchorage and biomechanical control.

PGIMER, Chandigarh 2020 - 2021
Junior Resident - Non Academic

- Performed 3rd molar extractions and over 200 root canal treatments.
- Handled periodontal surgeries, apexifications, and periapical surgeries with precision.
- Managed intermaxillary fixation cases efficiently.

SCB Dental College and Hospital, Cuttack 2013-2019
BDS - Bachelor of Dental Surgery

- Performed routine and surgical extractions, pediatric extractions, and managed trauma cases with intermaxillary fixation.
- Completed scaling, root planing, composite restorations, and Class II amalgam restorations.
- Provided comprehensive preventive and restorative dental care during BDS training.
